

TeleECHO™ for School-Based Health Centers

This teleECHO program is a biweekly, online training serving provider teams within the School Based Health setting covering both clinical and coordination topics and supporting professionals with ongoing needs as well as the extraordinary circumstances arising as a result of the pandemic.

Join by computer or smartphone at no cost.

Each session includes:

- Evidence-based lecture
- Case-based learning
- Opportunity to earn CME/CNE/Social Work CEUs

Participants can expect to:

- Build a network of related primary care providers
- Receive recommendations and shared experiences from the network

Target Audience:

- Physicians (MD/DO)
- Advance Practice Providers (NP/PA) Nurses, Medical Assistants
- Social Workers
- Non-clinical practice staff (practice administrator)

**Biweekly sessions
begin June 29, 2021**
