
DIRECTORY OF SCHOOL-BASED HEALTH CENTERS IN NEW MEXICO, 2025-2026

NMASBHC.ORG

INTRODUCTION AND OVERVIEW

New Mexico has a long history of providing healthcare to children and families through school-based health centers. That history involves a number of supportive partners including the New Mexico Department of Health – Office of Adolescent and School Health, New Mexico Health Care Authority, and the New Mexico Alliance for School-Based Health Care (NMASBHC). The landscape of sponsoring entities has changed over that history involving many schools, universities, hospitals, federally-qualified health centers, non-profit organizations, Indian Health Services, regional education cooperatives, and others.

NMASBHC is available to provide support to all of these partnering and sponsoring entities, and this includes creating, hosting and disseminating annual updates to a directory of school-based health centers in our state. This print directory is a snapshot in time, given the fact that services, providers and hours can often change at centers. The NMASBHC website directory is another resource for up-to-date SBHC information:

<https://www.nmasbhc.org/school-based-health-centers/sbhc-directory/> (where this document is also available for download). However, this print directory, funded through the New Mexico Health Care Authority, is an excellent tool to keep in hand, and it includes additional information (e.g. DOH contract status, etc.). SBHC sponsors provided the information included, and any SBHC that wishes to update their information is welcome to contact NMASBHC.

The SBHCs are ordered alphabetically by city of location, and then alphabetically by name of school. The information for each SBHC provided is accurate as of August 2025, but individuals seeking care are encouraged to contact clinics directly for more information.

* = This SBHC is contracted with the New Mexico Department of Health
